Student at The Browning School | FTC Robotics | Student Leader | Runner

Hero Description

I am a student at The Browning School with interests in engineering, robotics, leadership, and computer science. Through robotics, athletics, and student leadership, I have developed strong teamwork, communication, and problem-solving skills while learning how technology and leadership can create real-world impact.

I enjoy building systems, solving challenges, and collaborating with others in both academic and extracurricular environments. My experiences in FTC Robotics, Student Council, and Cross Country and Track have helped shape my work ethic, discipline, and leadership abilities.

Get In Touch Button Function

The “Get In Touch” button uses a mailto link that opens the user’s default email application.

Example: <mailto:bchao@browning.edu>

When clicked, the button automatically opens the device's default mail application with the recipient field set to:

bchao@browning.edu

This works across desktops, laptops, and mobile devices.

ABOUT ME SECTION

Section Title

About Me

Full Paragraph

Hello, my name is Brandon Chao, and I am currently a student at The Browning School in New York City. I am passionate about engineering, leadership, robotics, and athletics. I enjoy challenging myself academically while also developing leadership and teamwork skills through extracurricular activities.

One of my biggest interests is robotics and engineering. As a member of FTC Robotics Team Ultro 10539, I have worked on CAD design, competition preparation, scouting systems, and organizational planning. Robotics has strengthened my problem-solving skills and taught me how to work collaboratively in high-pressure environments.

Outside of robotics, I am heavily involved in Cross Country and Track & Field. Running has taught me discipline, consistency, resilience, and mental toughness. As a captain, I have learned how to motivate teammates, lead by example, and support others through challenges.

I am also active in Student Council, where I work on proposals and initiatives designed to improve student life and strengthen the school community. I enjoy finding practical solutions to problems and helping advocate for positive changes.

In the future, I hope to continue exploring engineering, computer science, leadership, and entrepreneurship while continuing to develop my skills in technology and teamwork.

Interests

- Robotics
- Engineering
- Computer Science
- Running

- Leadership
- Technology
- Teamwork
- Problem Solving

Goals

- Continue developing engineering and leadership skills
 - Explore careers in engineering or computer science
 - Build meaningful projects through robotics and technology
 - Continue growing as a leader and teammate
-

RESUME / EXPERIENCE SECTION

Section Title

Resume & Experience

EDUCATION

The Browning School

New York City

- Current Sophomore
- Expected Graduation Year: 2028
- Coursework includes STEM, humanities, research, and computer science

Relevant Coursework

- Computer Science & Engineering
 - Chemistry
 - Geometry
 - Research Principles
 - World History
 - English
-

LEADERSHIP EXPERIENCE

Student Council Representative

2024–Present

- Represents student concerns and ideas
- Develops proposals to improve school life
- Works collaboratively with faculty and students
- Organized and contributed to school improvement initiatives

Example Proposals

- Assessment pass policy reform
- School snack improvement proposals
- Lunch schedule proposals
- Student quality-of-life initiatives

Cross Country & Track Captain

- Motivates teammates during practices and competitions
- Helps create a positive and disciplined team environment
- Encourages teamwork, consistency, and accountability
- Leads by example through commitment and work ethic

FTC Robotics Team Ultro 10539

- Participates in robotics engineering and competition preparation
- Assists with CAD design and technical planning
- Helps organize scouting systems and match analysis
- Collaborates with teammates during competitions and engineering challenges

ACTIVITIES & EXTRACURRICULARS

FTC Robotics Team Ultro 10539

- Engineering
- CAD Design
- Scouting
- Team collaboration

Cross Country

- Distance running
- Team training
- Leadership experience

Winter Track

- Indoor track competition
- Team leadership
- Athletic development

Spring Track

- Outdoor track competition
- Endurance training
- Teamwork and discipline

Student Council

- Student advocacy
 - Proposal development
 - Leadership and communication
-

VOLUNTEER WORK

IronStrength Volunteer

July 2025

- Assisted with volunteer responsibilities and event support
 - Worked collaboratively with others during organized activities
 - Contributed to community-focused initiatives
-

SKILLS SECTION

Section Title

Skills

TECHNICAL SKILLS

- CAD Design
 - HTML
 - CSS
 - Python
 - Robotics Systems
 - Google Sheets
 - Data Organization
 - Engineering Design
 - Scouting Systems
 - Website Design
-

ACADEMIC SKILLS

- Research Writing
 - Analytical Thinking
 - Public Speaking
 - Presentation Skills
 - Scientific Analysis
 - Time Management
 - Communication
-

LEADERSHIP SKILLS

- Team Leadership
 - Collaboration
 - Organization
 - Initiative
 - Mentorship
 - Accountability
 - Problem Solving
-

PROJECTS SECTION

Section Title

Projects

FTC ROBOTICS PROJECTS

CAD & Engineering Design

Worked on robotics engineering and CAD-related tasks for FTC Robotics Team Ultro 10539. Assisted with designing systems, planning solutions, and collaborating with teammates during the engineering process.

Scouting & Match Analysis

Helped organize scouting systems and analyze match data during robotics competitions. Used data organization and teamwork to support competition strategy.

STUDENT COUNCIL PROJECTS

Assessment Pass Reform Proposal

Developed ideas and proposals designed to improve flexibility and fairness in the school assessment pass system.

School Improvement Proposals

Worked on initiatives related to student quality-of-life improvements, scheduling ideas, and school community engagement.

ACADEMIC PROJECTS

United Nations Demographic Research Project

Conducted research on the United Nations' response to declining birth rates and demographic change in the 21st century.

Facial Recognition Ethics Presentation

Created a presentation discussing the ethical and social implications of facial recognition technology.

Chemistry Investigation Lab

Completed a scientific investigation analyzing precipitation reactions and experimental design.

NAVIGATION & ORGANIZATION

Navigation Bar

- Home
- About Me
- Resume
- Skills
- Projects
- Contact

Navigation Features

- Clear navigation links
 - Smooth scrolling between sections
 - Consistent layout throughout website
 - Organized sections with logical structure
-

VISUAL DESIGN & READABILITY

Design Features

- Consistent dark-themed design
- Clear headings and section spacing
- Readable font sizes
- Professional color palette
- Organized visual hierarchy
- Clean and modern layout

Readability Features

- High contrast between text and background
 - Organized spacing between sections
 - Consistent styling across pages
 - Easy-to-read formatting
-

PROFESSIONALISM & APPROPRIATENESS

Professional Standards

- School-appropriate language

- Professional tone throughout website
 - No inappropriate content
 - Clear and complete sentences
 - Organized and polished presentation
-
